

PROJECT MANAGEMENT OF CENTRAL LONDON HQ

SAFFRON HILL, LONDON

CHALLENGE

Looking to transform their existing building, the Chartered Institute of Water and Environmental Management (CIWEM) wanted to create contemporary offices whilst retaining the existing façade. Our client also wanted to construct 4 new-build apartments to the third and fourth floors of the property. CS2 project managed the transformation of the existing building to achieve the client's objectives, whilst also approaching the project with a heavy influence on sustainability, from the recycling of existing building materials that arise from the demolition process, to green sustainable energy solutions.

SERVICES PROVIDED

- Project Management

POSITIVE OUTCOMES

- Delivery of a modern building with twenty first century facilities
- Excellent environmental credentials for the CIWEM
